

T-2 Program Descriptions and Options in 2011

The week-long high adventure program, T-2, is designed for Scouts 14 years of age and older, who have participated in the traditional Boy Scout summer camp program and are now searching for the next challenge. We are expanding the T-2 program offerings again to include four different programs to choose from. Scouts can register for any one of the following programs: "In Camp Variety", "Out of Camp Variety", "Rock Climbing Adventure", or "Sailing & Whitewater Adventure". All programs offer high adventure experiences during the day and time for Scouts to spend with their troop during select evenings.

T-2 "In Camp Variety"

Program Details (includes one overnight outpost in camp)

- Scouts participate in different programs each day. The program takes place within the borders of Tomahawk and allows Scouts to experience the extreme elements of the camp.
- Programs include climbing the new 60' mega climbing tower, mountain biking, action archery, skeet shooting, climbing the inflatable iceberg, Scouts vs. staff competitions, high ropes on the 50' COPE course, disc golf, horseback riding, and a circumnavigation around the Tomahawk peninsula.
- Program fee \$260

T-2 "Out of Camp Variety"

Program Details (includes one overnight outpost out of camp)

- Scouts participate in different programs each day. Some programs take place off camp property allowing Scouts to experience outdoor elements not found within the Tomahawk borders.
- Programs consist of a variety of day long experiences including rock climbing at Taylor's Falls, mountain biking on backcountry trails, whitewater kayaking on the Brule River, low and high COPE on the 50' COPE course, an overnight canoe trip on the Namekagon River, and more.
- Program fee \$295

T-2 "Rock Climbing Adventure"

Program Details (includes one overnight trip out of camp)

- This program is designed for Scouts who want an in depth climbing experience. Scouts will be proficient at setting up climbs safely, learn climbing knots and techniques and will climb on a variety of surfaces including multiple natural rock sites.
- The program offers a wide range of climbing challenges, instruction, and skill development. Scouts will participate in climbing instructional trainings, repelling techniques, tower and rock face set up and will climb on the Tomahawk Mega tower, and natural rock climbing on the North Shore and Taylor's Falls.
- Program fee \$275

T-2 "Sailing & Whitewater Adventure"

Program Details

- This program is aimed at Scouts who want to hone their sailing and paddling skills. Scouts will have the opportunity to earn the whitewater merit badge and will get significant time sailing on Long Lake.
- This program includes a whitewater adventure on the Brule River and a sailing regatta on Long Lake.
- Program outcomes include earning whitewater merit badge, developing skill proficiency and having the knowledge to be able to independently sail and paddle on whitewater in the future.
- Program fee \$275

The T-2 fees take the place of the fee for camp. Fees include all rental of special equipment for in and out of camp day trips, staff support, transportation, and food. You can't beat this price or the experience.

Space is limited; see the "2011 T-2 Registration Process" document to learn the specific steps to making a reservation. Reservations received prior to March 11 will not get priority and will be all processed on March 11th according to the registration process. Please call 651-254-9138 or email mmccabe@nsbsa.org with any program questions. For questions regarding the T-2 registration process contact Kris at kburbank@nsbsa.org.
